

Tailored products  
made of precious metals

**8853**

Au	Ag
Pt	Pd

From the microstructure of the precious metal alloys up to the semi-finished product, the attention to quality is the key to success in **8853 S.p.A.**, a certified company for the design, development and manufacture of semi-finished products for goldsmiths and industrial applications.

**88Precious Products** is able to manufacture a wide range of semi-finished products for **goldsmiths' needs**, but also for **industrial** or **special** applications, such as **drawn, cut, laminated, shaped or coined** items, starting from castings of excellent metallurgical quality that allows a better workability and products that can meet any customer's requirement.

The product range of **88Precious Products** includes all standard **Silver, Gold, Platinum and Palladium Alloys**.

Thanks to its versatility and its advanced "Research and Development" Laboratory, **88Precious Products** is able to develop special alloys according to customer needs, with a focus on the production of **Platinum semi-finished** products both for goldsmith and industrial uses.

Moreover **88Precious Products** has patented a special **Palladium Alloy 950**: wear-resistant and with a natural white colour unchangeable over the years without rhodium coating.

**88Precious Products** offers: **bars, wires, hollow rods/tubes, rings/washers, tapes, laminates/sheets, blanks/disks** in a wide range of shapes, sizes and thicknesses according to customer's requirements, as well as a selection of solders for torch, laser or tig welding.

The quality system of **8853 S.p.A.** complies with UNI EN ISO 9001:2008 and it is certified by TÜV/Germany. **8853 S.p.A.** is a member of the RJC (Responsible Jewellery Council) which guarantees the use of "conflict free" metals.

**PRODUCTION:**

Jewellery  
Goldsmith  
Silversmith  
Coins  
Medals

**INDUSTRY:**

Mechanical, Electronics,  
Aerospace, Energy, Optical,  
Nautical, Galvanic and  
anyother who need  
support of precious  
metals products

Rolled, cut, coined,  
drawn products  
Sheets, discs, flans,  
washers, wires, tubes  
Casting service  
in platinum and  
palladium alloys  
Shaped products  
on request

Platinum and  
special alloys tubes  
or wires for sensors,  
thermocouples, electrodes  
Sputtering Targets  
Pellets for evaporation  
Customized products on  
projects or drawings

High purity Gold, Silver,  
Platinum, Palladium  
Traditional precious alloys  
Binary and ternary platinum alloys  
Special alloys even customized  
Analysis of precious metals and alloys content  
Metallurgical and micro-structural analysis  
Research and Development  
even on customer request  
Guarantee of traceability  
from raw material to product  
Certified ISO 9001:2008  
and RJC (Ethic Code)

Coined products  
Gold tokens  
Gold, silver, platinum  
and palladium lingots  
Customized products  
Engraving and  
laser cutting

Rolled, cut, coined,  
drawn products  
Sheets, discs, flans,  
washers, wires, tubes  
Shaped products  
on request

**GIFTS:**

Prizes  
Promotional

**HOBBY:**

Handicraft  
Decoration

Treatment of scraps  
and old products  
for recovery of raw precious  
metals and transformation  
in new products

Purchase of  
precious metals  
content
